PRACTICAL ADVICE

Did you buy it because you need it? Surely it's not packaging but other plastic!

WHAT NOT TO THROW THERE

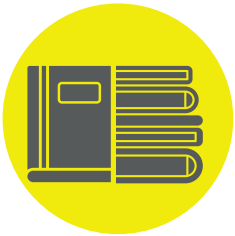

- Dirty plastic, metal and tetra pack packaging;
- FULL containers and bottles;
- Styrofoam for construction;
- Plastic durable goods;
- Toys, bags, backpacks;
- CCD cases and cases, music cassettes, video cassettes;
- Plastic cutlery;
- STRAW;
- Gardening items;
- Construction Items;
- Ashtrays, pencil boxes, trays, bowls;
- Bins and waste bins;
- Folders, document holders, pens, stationery;
- Car components and accessories;

YELLOW CONTAINER

PAPER ONLY

Paper and Cardboard are considered as “mono-material”, which mean that they should be thrown away alone, not together with other types of waste

BROWN CONTAINER

ORGANIC WASTE

All plant or animal material that we produce on a daily basis, and which occupies about one third of municipal solid waste.

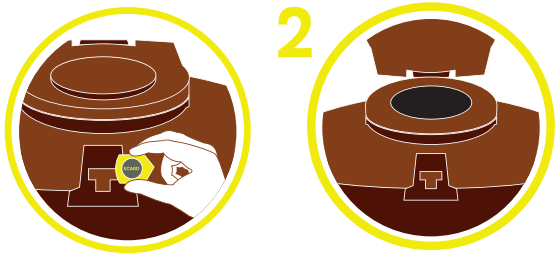

- Food scraps and leftovers
- Greasy paper and napkins
- Tea and coffee
- Flowers and leaves
- Wood ashes
- Coffee pods made of paper or fabric

WHAT NOT TO THROW THERE

- **Plastic bags**
- **Incandescent waste;**
- **Non-organic waste;**
- **Animal carcasses.**

E-CARD ACCESS

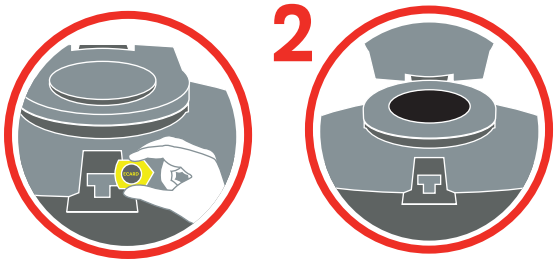

Place the card, wait for the second beep, open, discard your organic waste and close.

GREY CONTAINER
RESIDUAL WASTE

E-CARD ACCESS

Place the card, wait for the second beep, open, discard your residual waste and close.

WHAT NOT TO THROW THERE

- Waste that can be sorted
- Liquid and incandescent substances;
- Hazardous and toxic-harmful waste;
- Bulky waste (even if small in size: stools, table lamps, etc.);
- Waste from Electrical and Electronic Equipment (WEEE), even if small in size;
- Construction and demolition waste such as aggregates, rubble, insulation sheathing and tar paper.
- Spare parts of various kinds (machinery, motor vehicles, etc.);
- Energy-saving light bulbs and neon bulbs.
